COMPANY PROFILE

STARMATRIX GROUP INC. is an exporting-oriented group company established in 1992 which combined with production, trading and services. Our head office is located in Zhenjiang, about 200 kilometers north of Shanghai, which is the most economically active part in China.

Nowadays STARMATRIX GROUP INC. has become one of the leading manufactures of garden equipment professional engaged in research, development, sale and service of hose reel, garden tools, pond filter and mist cooling systems.

We have established a stable supply and marketing network of numerous products in the international market. Our products have been sold to more than 30 countries in Europe, America, Australia and Asia. Based on the existing products, we can also produce according to the samples and drawings provided by customers, and cooperate with customers in various ways (such as OEM).

We are committed to strict quality control and considerate customer service. Our experienced staff are ready to discuss your requirements and ensure full customer satisfaction.

Under the close cooperation with European and American designers, our products have unique appearance and advanced technology. We always provide the latest designed products, and our products have the widest range of application.

We are fully equipped with plastic injection, extrusion, blow moulding and metal processing machines. Also we have 6 assembly lines and more than 300 qualified engineers and workers.

We are confident in our cooperation. We warmly welcome customers from home and abroad to cooperate and create a better future.

ENERGY SAVING, WATER SAVING, RECYCLING

Starmatrix is a professional manufacturer of highly engineered Garden, Pond and Pool products. Being green is always the concept and mission of the company.

In devoting to creating a green and leisure home yard life and developing products designed to enable energy-efficient operation under energy saving facilities, Starmatrix makes a positive impact on the world not only because of the types of products we make, but also how we make them. Starmatrix relies on solar electric technology, cuts the amount of energy needed in production, recycles water waste each day through a closed-loop recycling process, continuously updates the product ranges for the purpose of water saving and utmostly keeps materials of product and packaging environmental and recyclable.

ENERGY SAVING

The forward-looking solar power generation system provides 60% energy for the factory every year.

WATER SAVING

Efficient water circulation system does not waste every drop of water in production activities.

RECYCLING

All of our products and cartons consist at least 65 % recycled material.

01

Retractable Hose Reel

To create a better life, start from here...

Turn on the water and pull out the hose, Gartenkraft retractable hose reel with high quality hose will bring you happy watering time to water hard-to-reach plants, drive the sprinkler, clean the car...what a wonderful watering experience for everyone.

Gartenkraft retractable hose reel is a wall mounted unit featuring a high quality spring loaded hose that automatically retracts on your command. Its specially designed locking mechanism secures the hose at any length, eliminating excess hose prevent kinks and tangles

To put you hose away, simply give it a gentle tug and automatic rewind feature and self-layering mechanism retracts and coils your hose saving your time and energy.

Thanks to the cleverly designed mounting brackets, the hose reel pivots 180° and follows your direction around the garden as you water. After watering, the reel can be stored flat against the wall keeping your garden neat and tidy.

Ground Base With Extension Ring

Ground Spike

**Model: Reel King
RK-20S/40S 1/2" RK-15B/30B 5/8"**

FUNCTION & FEATURES:

- Ideal for watering, irrigation, cleaning in lawn, garden, courtyard, patio, deck, driveway
- Environmental and eco-friendly
- Distinguished design and new presentation
- Free locking mechanism realizes to stop and lock hose at any desired length
- Slow rewinding system to retract hose at a safe speed
- Automatic layering mechanism to guide hose to retract without kink and tangles
- Mounting system allows the rotation of hose reel around reinforced nylon wall bracket about 180 degrees
- Multi-scenario use to achieve the rotation of 360 degrees by optional ground base or ground spike
- Hose reel allows to be padlocked to the wall bracket for anti-theft
- Dual integrated carry handles make it easy to lift hose reel from its mounting bracket to move it wherever you need
- Super large side round cover for customized logo printing
- Comes fully equipped and pre-fitted, includes hose, hose end quick connection fittings and hardware

Ground Spike For Hose Reel

GROUND SPIKE

- Complete Package including assembly tools
- Easy to assemble and labor-saving to install
- Equipped with inlet/outlet connectors to achieve quick connections with garden hose
- Sturdy metal spike means you can install it anywhere of your lawn garden without damaging your wall to mount hose reel
- Allows hose reel to 360 degree rotate. You can easily water your garden in any direction and have maximum freedom of movement
- Free movement mechanism to prevent leader hose from kink or tangling or wrapping spike
- Applicable to ready-made hose reels with metal pin support onto bracket in the open market
- User-friendly design of Anti-theft function

METAL HOSE REEL
Strong and sturdy hose guide

FUNCTION & FEATURES:

- Up-to-date design, durable
- Heavy Duty Steel construction
- 1.5m/5ft 5/8" high flow leader hose included
- Hold up 38m/125ft 5/8" high flow garden hose (Hose not included)
- Rust-proof brass/aluminum connections with Leak-Free Guarantee
- Corrosion-resistant powder coat finish
- Automatic layering mechanism to guide hose to retract without kink and tangles
- Full 360 degree reel rotation for effortless rewinding
- Patented Locking mechanism makes reel steady when manually retract hose
- Storage tray for storing your frequently used tools and nozzles
- Mounting Bracket and hardware included
- Non-slip crank handle
- Minimal assembly

PARTS LIST

HARDWARE INCLUDED

- Holds 38m/125 feet hose (hose not included)
- Hose guide
- Bronze powder coating to protect the reel
- New type of locking mechanism
- 360° Rotation

Garden
Hose

Garden Hose

GartenKraft garden hose is trustworthy and a necessity for any keen gardener. The hose has been crafted using high-quality PVC, which strengthens the flexible hose abrasion resistance, high pressure resistance, and ageing resistance and has an elastic outer fabric with dense and rugged lining that can protect the inner tube effectively, the reliable lining provides superior protection from thorns, puncture, sharp corners, extra resistant to bursting and leaks as well as defence from normal friction that can cause damage.

This superb range of strengthened water hose is developed to offer extreme durability and come in alternative lengths to suit the size of your garden, whether you have large or smaller area of garden to cover.

FUNCTION & FEATURES

- Ideal for watering plants or lawn, washing pets, cleaning windows, and other outdoor cleaning, but be aware that not for drinking.
- Diameter: 1/2" (12mm*17mm)
- Reinforced 3 ply polyester fibre hose
- UV & frost resistant
- Phthalate Free
- Withstands temperatures of between -10°C - +65°C
- Algae resistant and easy to clean
- Bursting pressure 24 bar
- Complete package with spray nozzle and connectors (15m package only)

Mist Cooling

01 PERSONAL COOLER

Cooling ties help you cool down, relax and help regulate body temperature through the natural process of evaporation. Cooling ties are made with lightweight, comfortable cotton and cooling crystals to provide cooling relief at home or on the job.

STORAGE: Always store in clean, dry conditions. Do not store in places subject to direct, strong sunlight.

APPLICATION

- Gardening
- Exercising
- Hot Flashes
- Working Outdoors
- Feel more comfortable and relaxed
- Avoid heat exhaustion
- Promotes safety by regulating body temperature

90001 Cooling Tie
How cooling tie works

- Activate by soaking in water
- Special polymers absorb water in capacity of far more their weight.
- Wrap cooling tie around your head or neck. It brings cooling power where you need it most
- Re-use by just soaking in water
- Tie closure for comfortable fit

SPECIFICATION

Material: cotton fabric, crystal polymers
Available color: blue, red, orange, white, black

90003 Cooling Bandana

- Polycotton material with cooling crystals
- Soak in water for 7-8 minutes, squeeze out excess to activate
- Wear it on your head to facilitate cooling sensation
- Cooling effects last for hours

SPECIFICATION

Material: polycotton, crystal polymers
Available color: blue, red, orange, white, black

90005 Cooling Towel 32"X16"/81cmX40cm
90004 Cooling Towel 32"X8"/81cmX20cm

Starmist Cooling Towels keep you 20°F /11°C cooler than the outdoor ambient temperature. Simply activate in water and it is like having your own personal air conditioner on you at all times. Stay cool and be safe while working outdoors, exercising, gardening, or relaxing at the beach.

How it works: The material is highly absorbent, (like a sponge) and can absorb up to times its weight in water. Once wet, the towels produce a cooling affect with the help of simple evaporation. As long as the towel is wet, the towels will stay cool. Exposure to the air will keep it cooler even longer.

How to use: pre-wash and air dry before first use

- Dip the cooling towel in cold water for complete adsorption
- Wring out the excess water and wear the cooling towel around neck, head or wrist to enjoy cooling & refreshing
- Soak the cooling towel again for repeated use when dry

SPECIFICATION

- Material: 75% PVA, 17.4% water, 7.5% mesh, 0.1% toner
- Available color: blue, green, pink

Mist Cooling

01 PERSONAL MISTER

80003 Misty 10oz/300ml

- 10oz water reservoir
- 3' of coiled polyethylene tubing
- On/off valve
- Alligator clip for "hands free" use
- Built-in belt clip

80004 Misty 16oz/470ml

- 16oz water reservoir
- Convenient carrying case/nylon sleeve
- Lasts an average of 2 to 3 hours when used intermittently
- 3' of polyethylene tubing
- On/off valve
- Badge Clip to make mister "hands free"
- Can fit in most bottle holders of a bicycle and most cup holders

80005 Misty 24oz/700ml

- 24oz water reservoir
- Convenient carrying case nylon sleeve-with 1 mesh pocket and 1 zipper pocket
- Lasts an average of 3-4 hours when used intermittently
- 3' of polyethylene tubing
- On/off valve
- Built-in strap that can be worn around your waist or over your shoulder
- Available in gray case with blue stripe

80006 Camping Mister 3 Litre 80007 Camping Mister 5 Litre 80008 Camping Mister 8 Litre

The portable Camping Mister misting system provides a cool environment from the heat wherever you need it. It comes pre-assembled with clip attachments for easy 'set up' and 'take down' and includes a portable water tank in 3L/5L/8L for when you can't find a water source. Provides 3m(10 feet) of lead line and 3m(10 feet) of mist line to cool the ambient temperature up to 2 /35°F. It's perfect for your camping trip.

FEATURES

- Potable and effortless use
- Safety locking pressure-release valve
- Heavy-Duty plastic tank with top funnel for easy (re)filling
- Ideal for canopies, RV's&motor homes, tents, boats, awnings

80001 Mini Mister 1oz/30ml

This Mini Mister has a 1 ounce/30ml fluid capacity to create an ultra fine mist. This product never needs batteries because of the amazing push button technology. Easy to use and portable to fit in your purse & beach bag

- Micromist technology
- Fill cold water only, no drinking
- 10-15 times pumping to pressurize mister with air

SPECIFICATION:

- Material: ABS + AS (Acrylonitrile-styrene Copolymer)
- Working Pressure: Max.6bar/87psi

◆ Compliance with European Food Contact Regulations and available for the test report issued by SGS

80002 Mini Mister 2.5oz/75ml

Get the pump action with the personal water mister. Great for outdoors to help eliminate heat stress on these hot summer days. Just pump and press the button to get a cool and steady mist. Holds 2.5oz/75ml of fluid.

- This mister provides event attendees with much-needed relief on those scorching summer days-no batteries required
- Simply pump the refillable bottle 10-15 times to pressurize it with air, then press the misting button to spray an ultra-fine mist
- The plastic mister is no bigger than a travel-size bottle and includes a removable wrist strap for easy carry and storage
- Perfect promotional idea for outdoor concerts, festivals, graduation ceremonies, parades, reunions and so much more
- Fill cold water only, no drinking

SPECIFICATION:

- Material: ABS + AS (Acrylonitrile-styrene Copolymer)
- Working Pressure: Max.6bar/87psi

◆ Equipped with Pressure Release Valve to avoid explosion if over pressurizing

01 ELECTRONIC MISTING TIMER

Electronic Misting Timer

New electronic timer designed by us specially for misting purpose, which could be timing by second in Frequency&Run Time instead by minute only as old models. It is very small and simple to operate but quite effective for misting program set up.

SPECIFICATION

Water Connection: 1/2", 3/4" Thread
 Recommended water pressure: 1bar/14.5psi-7bar/101.5psi
 Time Set: 2 sec to 99 hr
 Frequency Set: 2 sec to 99 hr
 Power Supply: 1x 9V Alkaline battery(not included)
 Recommended operating temperature: 4-60°C

FEATURES

- Effective control of misting frequency and duration with simple, straightforward and user-friendly programming
- Weather-resistant, impact-resistance, premium ABS construction
- Easy-to-read 1.4"X0.9" LCD Display alternates between current time and timer status with bar-graph battery strength indicator
- Low power consumption, up to 40,000 on/off cycle with 1 fresh battery

01 HOUSEHOLD HIGH PRESSURE MISTING PUMP

★ NEW for 2023 ★

COMPLY WITH

70001 Misting Pump 0.5L

FEATURES

- Streamline design and elegant exterior
- Features with a touch panel for multi-function operation, supported by remote control
- Patented 3-piston pump, long life span
- Motor overheating protection
- Water lack protection
- Noise reduction Technology to keep lower noise of around 50dbs
- Low frequency maintenance to pump every 1000 running hours
- High gloss metallic finishing pump housing
- Equipped with nylon tubing, PVC supply hose, anti-dripping nozzles, brass fittings, hose cutter
- Ideal for outdoor cooling, environment moisturizing, mosquito repelling, disinfection, landscaping
- CE approved
- Available color: gold, water blue

Pump Material: Aviation Aluminum
 Piston Material: Ceramic plated SS304
 Seal Material: Viton

01 PROFESSIONAL PATIO MISTER
DIY HIGH PRESSURE KIT

983036N 3.6M/12FT 3/8"

Upgrade your outdoors with the power of high pressure mist. The professional grade patio mister DIY HP 12 flexible nylon edition system provides a cool environment from the heat for your favorite outdoor areas.

FEATURES

- Has flexible nylon high pressure tubing
- Durable rust proof metal enclosure
- Ultra fine brass nozzle
- Slip-lock fittings for easy set up
- Intended for use with high pressure misting pumps up to 1000psi
- Easily expandable with additional accessory purchases
- No gluing or special tools required

SPECIFICATION:

- Tubing material: nylon
- Length of tube included: 3.6m/12ft
- Tubing diameter(in.): 3/8"
- Fitting material: brass
- Nozzle material: brass
- Maximum pressure: 1000psi

APPLICATION

1. Great for cooling your outdoor living areas
2. Cool for animals
3. Evaporative cooling for flue gas, poultry farm
4. Irrigation of vegetables
5. Humidify for factory
6. Artificial fog

983036S 3.6M/12FT 3/8"

Upgrade your outdoors with the power of high pressure mist. The professional grade patio mister DIY HP 12 stainless steel edition system provides a cool environment from the heat for your favorite outdoor areas.

FEATURES

- Uses high pressure tubing
- Durable rust proof metal enclosure
- Ultra fine brass nozzle
- Slip-lock fittings for easy set up
- Intended for use with high pressure misting pumps up to 1000psi
- Easily expandable with additional accessory purchases
- No gluing or special tools required

APPLICATION

1. Great for cooling your outdoor living areas
2. Cool for animals
3. Evaporative cooling for flue gas, poultry farm
4. Irrigation of vegetables
5. Humidify for factory
6. Artificial fog

SPECIFICATION:

- Tubing material: stainless steel
- Length of tube included: 3.6m/12ft
- Tubing diameter(in.): 3/8"
- Fitting material: brass
- Nozzle material: brass
- Maximum pressure: 1000psi

01 INSERT-IN OUTDOOR MIST COOLING SYSTEM LOW PRESSURE KIT

741015 15M/50FT 1/4"

Long sleeve insert-in brass nozzles to perfectly match the 1/4" universal quick connectors. Easy to get similar fittings in the open market for fitting replacement or additional fittings to extend misting kit.

FEATURES

- Do-it-yourself mist cooling kit
- Environmental PE tubing
- Attach to any standard garden hose
- Portable and easy to install
- Reduce temperatures by up to 2°C/ 35°F
- For outdoor use with cold water only
- Applicable to porch, decker or umbrella

SPECIFICATION:

- Tubing material: Polyethylene
- Tubing length: 50ft (15m)
- Nozzle material: Brass
- Tubing diameter (in.): 1/4"
- Working pressure: 2.8bar/40psi-8.3bar/120psi

APPLICATION

1. Great for cooling your outdoor living areas
2. Cool for animals
3. Artificial fog

01 FLEXIBLE MISTING STAND

Mist Cooling

★NEW for 2023★

821019 Flexible Misting Stand

Material: Aluminium composite pipe
Diameter:12.5*20mm
Length:1.90M
Includes brass nozzles and male adaptor

- Bend and position into different shapes and sizes to fit your misting needs
- Make sure that the hose washer is in place and attach to garden hose
- Unscrew mist nozzles and run water to flush
- Turn off the water and hand tighten the mist nozzles in place
- Always drain water from misting stand after use
- Unit will be under pressure for several minutes after turning water off, do no tattempt to remove nozzles while unit is under pressure

01 PATIO MISTER OUTDOOR MIST COOLING SYSTEM
PREASSEMBLED LOW PRESSURE KIT

Mist Cooling

141010F Misting Fan Ring 3M/10FT 1/4"

The 10"(25cm) metal fan ring effectively enhances the cooling power of any regular outdoor fan. The 4 nozzles ring simply attaches to the safety cage turns your regular fan into a powerful mister.

FEATURES

- Completely preassembled. Simply unpack and attach
- Works at standard city water pressure of 2.8bar/40psi-8.3bar/120psi
- Ultra-fine brass nozzles
- Leak proof compression fittings
- UV treated flexible tubing
- Garden hose connector with mesh filter washer
- Metal Fan Ring for all types of outdoor weather

SPECIFICATION:

- Ring material: stainless steel
- Ring diameter: 10"(25cm)
- Nozzle material: Brass
- Tubing material: PVC
- Tubing length: 10ft (3m)
- Tubing diameter (in.): 1/4"
- Working pressure: 2.8bar/40psi - 8.3bar/120psi

**STARMIST**

LOW PRESSURE MIST COOLING SYSTEM

If you're looking for a way to beat the summer heat, a misting system might be the answer for you. Starmist mist cooling system offers perfect low cost solution for your outdoor cooling need. These systems use high quality parts like brass or plastic mist nozzles, UV treated tubing and leak proof compression misting tees that will last for years to come. The low pressure misting systems operate off of standard household water pressure without the need for an expensive misting pump. The system can either be hooked up directly to a garden hose or to a garden hose faucet.

HOW IT WORKS

All misters work with evaporative cooling - the natural cooling effect that happens when water evaporates in warm air. Misting systems are most commonly defined as a series of special mist nozzles placed in a line around the perimeter of an area. When connected to a tap, water is forced through the specialty nozzles and will produce billions of tiny droplets every second. If these droplets are introduced into an outdoor area, they quickly evaporate. This process of evaporation requires energy to be completed. The energy is taken from the air in the form of heat. The result is a temperature reduction of up to 35°F /2°C, depending on the ambient temperature and the relative humidity of the air. This method of temperature reduction is the most common use for all misting systems.

WHERE TO USE MISTING SYSTEM

Misting system can be very effective for cooling open outdoor areas because the weight of the water in the spray keeps the cooling relatively confined. That means the cooling effect will stay in the area you actually want to be cooled. Widely used in patios, pools, greenhouses, gardens, gazebos, restaurants, sports arenas, camp sites, outdoor events, even in pets areas.

PRODUCT INDEX

- 03/18 Mist Cooling System

- 19/20 Misting Pump

- 21/27 Mist Cooling Part

- 28/30 Personal Mister

- 31/32 Personal Cooler

- 33/34 Misting Fan & Splash Pad

37/38 Fire Pit
